1. Tibberton wrong place to have lockers. The road to VH is very narrow - If a light comes on when it is dark will it shine into the windows of the adjacent homes causing children to wake up
2. The lockers will increase the traffic flow into the village
3. Why not by Parish Hall
4. For Tibberton residents only?
5. Could increase the risk of potential crimes as the lockers will be available 24hrs, 7 days/wk
6. No Cllr lives in Hawthorn Rise
7. Who will be responsible for keeping the area clean
8. Does the income for having the lockers out weigh the inconvenience for villagers
9. Within a 4 mile radius of the village there are already 12 sets of InPost lockers with the closest only being 1.64 mile away

We think they would be useful especially since deliveries in the village are so unreliable. Safety & security could be an issue, VH vulnerable to burglary
